

Employee Experience (EX) Solutions

Would you like to create a compelling employee experience to drive engagement and performance?

EX Drives Key Business Results:

EX drives improvement in employee outcomes that are critical to any enterprise, such as engagement and retention as well as business outcomes like customer experience and financial results.

Our research indicates that the top 3 benefits of a solid EX approach are 1) higher workforce engagement, 2) increased productivity and 3) enhanced customer experience¹. EX is strategic way to drive results your organization needs now and in the future – and Stewart Leadership is here to help.

EX Solutions:

Your Stewart Leadership Consultant will partner with your leadership and human resources team to tailor employee experience solutions that drive your business strategy and human capital priorities using our four-step process. Custom consulting solutions may include one or more of the following:

1) EX Strategic Framework and Journey Map

Build a tailored EX strategic framework and enterprise journey map aligned with your strategy and culture.

2) State of EX Assessment Report

Leverage and customize a variety of measurement tools to assess the current state of EX in your organization and provide you with a detailed summary report aligned with your EX strategy.

3) EX Success Roadmap

Analyze and understand assessment findings to build a roadmap to help you accelerate EX efforts and execute your EX strategy.

4) LEAD NOW! EX – Leadership Development Workshop

Develop your leaders and team members as needed on ways to maximize the EX in alignment with your strategy and roadmap.
